

Sponsorships and how they work

Sponsorships have been set up by our listing partners to help pay for all or part of the operating costs related to starting a tribe in its first year. Each listing that supports a sponsorship has been given a unique code that founders of the tribe will need to use in order to process paying for these sponsored items. Some sponsorships will pay for much of the LLC processing and some will merely discount subscription fees for the tribe. What the sponsorship pays for should be clearly marked on or near the listing along with the minimum investment.

Entering Your Promo Code

Once you've selected a sponsored deal, you can enter the promo code when signing up for your tribe's membership with TribeVest.

The image shows a screenshot of a payment form. At the top, the word "Card" is displayed. Below it is a form field for the card number, with a small card icon on the left. To the right of the card number field are two smaller fields for the expiration date, labeled "MM / YY", and the CVC, labeled "CVC". Below the card number field is a blue link that says "Apply Promo Code". The entire form is enclosed in a dashed border.

The promo code has been set for a year's free subscription, then the billing will switch over to the card you have entered.

Sponsorships Providing LLC services

Some sponsorships pay for the filing of the tribe's LLC. In these cases, Tribevest mandates that the LLC is filed within the state of Ohio. Although there are several advantages to this for the new tribe, it also reduces risk to the sponsorship program and can not be modified.

For Registered Agent Services, you must select to use Tribevest Inc. as your registered agent.

Closing Deals within the timeframe

In order for the Sponsorship to cover your LLC filing costs and other optional business services, you will need to close on your investment within the sponsor's specified timeframe or within a year of founding your tribe (If timeframes are not specified by the sponsor).

Intent of the Sponsorship Program

The sponsorship program is meant to get investors started and encourage new members to join the platform and is not meant to provide revenue back to active tribes. This is why we only pay directly for services that get investors up and running and we don't incentivize existing tribes to start over (as they already have most of what we pay for). We appreciate our existing members and as they form new tribes with new partners, they are certainly eligible to enjoy the benefits of sponsorships.
